

Get informed about SMART Solutions!

SMART Technologies is proud to present two of our newest software solutions: SMART amp and SMART Notebook 2014. These highly anticipated products focus on integrating students' devices in the classroom and enhancing engagement and collaboration. In order to share our excitement with educators, we are hosting front-row SPOTLIGHT Webinars every Tuesday and Thursday through our Educator2Educator portal.

This is a special [can't-miss] opportunity to experience the compelling features and benefits of our latest innovative and engaging classroom additions. [:]

SMART amp

Created with the cooperation of teachers, SMART amp software increases classroom engagement by seamlessly connecting students' devices to create a collaborative workspace that can be accessed at anytime, from anywhere. This virtual learning environment allows students to work together on projects and assignments in real time while providing instructors the ability to upload lesson material and conduct real-time assessments. For even greater functionality, SMART amp easily integrates and enhances the Google Education Apps you may already be using.

SMART Notebook 2014

Rich with new tools and add-ons encouraging heightened pupil participation and engagement, Notebook 2014 provides an enhanced collaborative learning environment for both cloud and non-cloud enabled classrooms. SMART Notebook 2014 includes the following:

- Collaborative learning software that combines a variety of digital content into a single location
- Instant feedback and class participation with the XC collaborative brainstorming tool
- Mathematics programs for all grade levels and advanced math functionality with Geogebra integration for both Windows and Mac
- Ink editing and handwriting-to-text conversion for humanities and language instruction
- Optimized learning using 3D and mixed-reality content
- Access to SMART Response VE formative assessment tool and a host of additional educational programs and interactive features with the optional SMART Notebook Advantage annual subscription.
